

## Celebrating 25 Years of Excellence: The Remarkable Journey of Thargelia Romero

In the profession of ERP consulting and IT business services, longevity can often speak volumes about one's dedication, expertise, and passion for the craft. Join us in celebration as we shine a spotlight on Thargelia Romero, a titan in the field of Microsoft Dynamics GP and Dynamics 365 Business Central consulting. Her 25-year journey with Endeavour Solutions has been nothing short of extraordinary.

Thargelia's narrative is one of resilience, learning, and an unyielding commitment to client success. Her journey commenced far from the boardrooms and offices she now frequents, as she once stood at the front of a classroom as a teacher with a Bachelors of Education specializing in math, shaping young minds in her home country of Venezuela. In search of new adventures, Thargelia later immigrated to Canada, leading her to the bustling streets of Toronto.

Upon her arrival, Thargelia embarked on a quest for knowledge, completing a graduate course in Accounting. Her relentless pursuit of growth and development caught the eye of Endeavour Solutions, where she began her tenure in 1999 as our Accounting and Business Administration.

Within a year, Thargelia transitioned from internal support to the role of a client-facing Dynamics GP consultant, entrusted with the responsibility of delivering projects for some of our largest clients at the time. A natural fit, she was able to translate her passion for teaching and human connection from the classroom to the boardroom. Her aptitude for problem-solving and her innate understanding of client needs quickly established her as an indispensable member of our GP consulting team.

Thargelia's impact has been far greater than just client delivery; she has also served in shaping the

bedrock of our company, playing a pivotal role in onboarding a multitude of our star consultants over the years. Her journey with Endeavour Solutions has been marked by numerous milestones, each a testament to her unwavering dedication and passion for learning.

Embracing change as an opportunity for growth, Thargelia seized the chance to become one of the first GP consultants at Endeavour to be certified on Microsoft Dynamics 365 Business Central to support Endeavour Solution's evolving Cloud-ERP portfolio. She admits that being an ERP consultant is no longer just about possessing diverse technical knowledge but rather about forging meaningful relationships and understanding the intricacies of each client's unique business needs. Looking back at her tremendous career, Thargelia shares, "Work hard, be loyal, and be grateful for all the lessons learned".

Beyond her professional career, Thargelia has been a volunteer Treasurer for a Venezuelan organization for over 15 years raising money in support of the organization's mission to help children, stock food banks, and provide assistance to the homeless. She has a multitude of personal interests from tap dancing, to being a world traveler, a concertgoer (Taylor Swift to Elton John), and an avid baseball fan. When at home she finds solace and joy in the company of her two beloved dogs, Riley and Arwyn, her two cats, and her daughter Tori.

As we commemorate 25 years of Thargelia's invaluable contributions, we celebrate not only her achievements but also the profound impact she has had on Endeavour and the clients we serve. Her journey exemplifies dedication, perseverance, and the relentless pursuit of knowledge, inspiring us all to reach greater heights. Here's to Thargelia - a true icon of Endeavour Solutions.

*"Work Hard, Be Loyal, and  
Be Grateful for all the  
lessons learned"*
